## Tour Details

**11.02.12**

Arrival should be that you can catch the Domestic flight like this.

### Flight to Rangiroa:

Flight		Location	Departure	Arrival
VT / Y 534	from to	Papeete (PPT) Rangiroa Island (RGI)	11.02.2012 11:05	11.02.2012 12:05

## Rangiroa

Arrival and transfer to the pension at Rangiroa. Rest of the day relax and set up tackle.

**11.02.- 22.02.12**

12 Nights at the Pension at double room incl. breakfast and dinner.

**Rangiroa** – is Polynesian language and means "endless sky", the name is maybe coming from there because the Islands are so long that it seems they reach in to the sky. This is the biggest Atoll of French Polynesia with 240 Motus (small Islands) and is the 4. biggest Atoll of the world. It has over 100 „hoa“, (small channels) which break thru the coral reef belts which separates one Island from the other. In the middle of the lagoon is the biggest Island Patio.

Only some meters away is the Jetty where our fishing boats leave from.

The Resort is very simple, but nice and familiar. The bungalows are at the sea side and some are at 2. line after the others. The double rooms are simple as well and have a bathroom with cold shower. At the price is already continental breakfast and dinner incl., the dinner is French and international and every day we can decide from about 3 different meals. The howl day is as well tea and coffee as self service available. As well there are small shops and so one.

## The Pension and location

The Pension is direct at the sea side and even inside the lagoon are many fishes and even come until the terrace of the Resort at night under the Jetty you can see already big rays and sharks.

**So if you like you can bring as well spinning gear for fishing in the Lagoon before or after the fishing trips. So you can fish all day around if you like.**

So as my father says the place with the most fish and direct in front of us it must be good. As well for this price it is even better, because usual you will pay about 5000 Euro for a trip like this. If you check out other place where they offer fishing you will see how much you only pay already for fishing only, they charge there every where a lot for everything, but we have a real special price and already incl. almost everything!!! So don't wait long and join us.

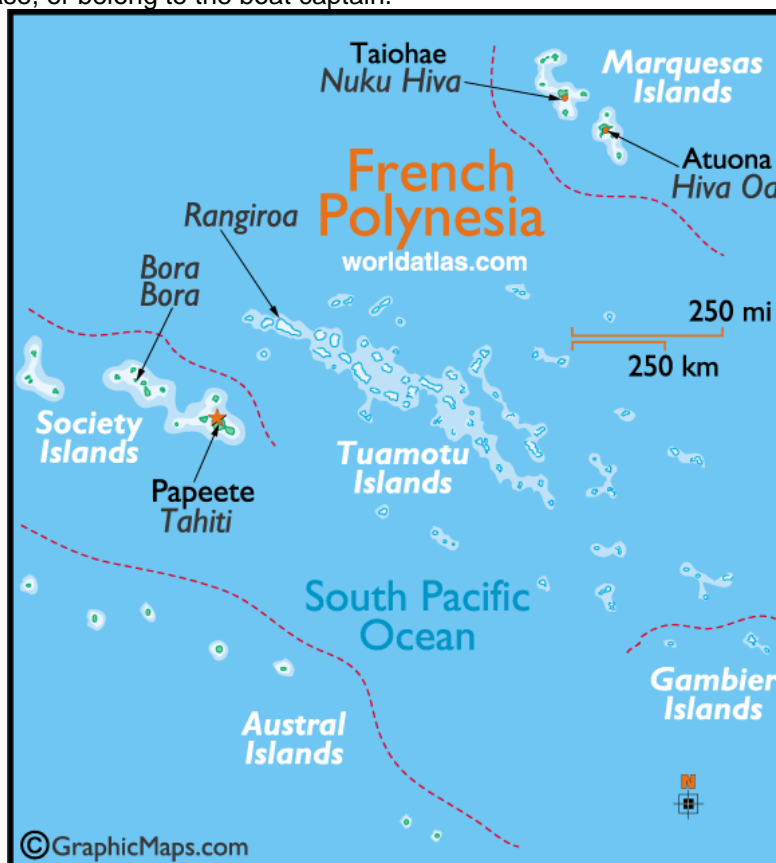

### The fishing:

The location of the rooms are perfect only walk some metres to the boat and start to fish. At the price is already 10 days fishing from the speed boats incl. with each boat 2 angler on board. We will start fishing at the 12.02.12, so we have one day spare in case of bad weather. So we have much space at each boat. Fishing is for 6 – 8 h every day incl. As well water and coke and lunch is incl. at each fishing day! So we don't have any more big expense at the spot, you only need again money for some drinks and private expense. For fishing it will be jigging and casting but if someone like to do trolling it is as well possible! What can be expected, here is everything possible to catch a very wide range of fishes.

### Why we like to fish here:

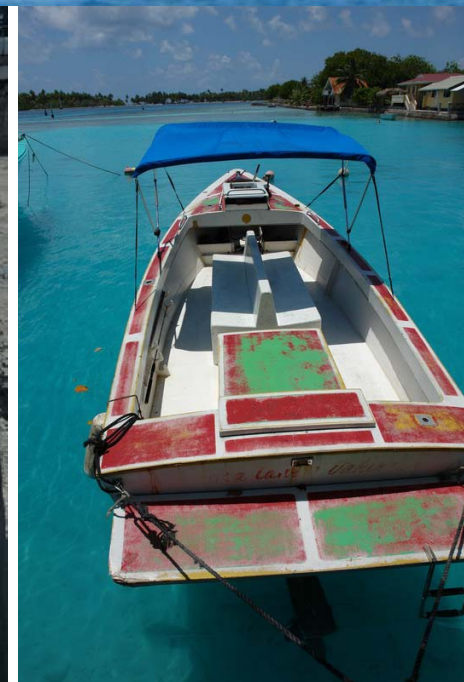

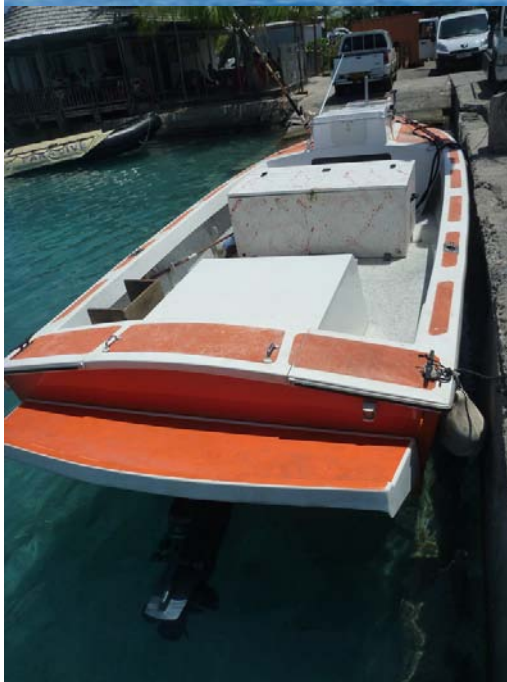

There is no commercial fishing no charter boats for fishing only some private people who go fishing and from them we will get the boats. So only 5 boats we get so only 10 fishermen can go, so you need to be quick to book your spot! My father has dive there for one week at 2010 and he dive already 40 years all over the world but he says that he has never somewhere else see so many fishes at one time then there and as well so many big fishes. He say is really crazy and he made so many pictures and films it is really unbelievable how many fish are there. So we are the 1. ones how will be taken from the local there to fish. We are quite sure this will be a great test tour with many nice fishes and a lot of fun. We agreed with the local's that we can only take 1 fish per day per boat if we like. The rest of the fish we release, or belong to the boat captain.
